Mail Bid Sale #1
WORLDWIDE TOKENS
Closing NOV 6, 1982

As a way of introducing myself to you I am publishing a modest selection of Worldwide tokens and other exnumia as a mail bid sale. Others on this list are available at fixed prices. As you will see there is a heavy concentration of pieces from Spanish America. This list is included along with that of Holland Wallace, whom you all know, as part of a business arrangement. Any bids or purchases you wish to make from this list should come to me at the above address and not to Holland. Other business references are Mr. Steve Album of Santa Rosa CA, the leading authority on Islamic and Middle Eastern numismatics and Duane Feisel of Los Altos CA a nationally known author in several fields of exnumismatics. Addresses of these gentlemen are available on request.

I am interested in receiving consignments of worldwide tokens for inclusion in future lists and will also consider outright purchase of collections or small lots. Coins for sale should be directed to Holland Wallace. I can also assist in the attribution of tokens, mostly those of Spanish-American and European origin. The fee is \$2.50 per piece plus postage both ways. If I cannot attribute the token, then you pay only the postage. Rubbings can be used if they are legible.

MAIL BID SALE RULES & TERMS

1. All bids must arrive by Nov 6, 1982. All lots sold to the highest bidder. In the case of tie bids, the lot goes to the earliest arriving bid.
2. The minimum bid is \$1.50 per lot in U.S. funds. Unreasonably low bids may be rejected. Bid a specific dollar and cent amount per lot.
3. Winning bids over \$10 will be reduced to a 20% advance over the next highest bid up to a maximum reduction of 50%. Bids will not be reduced to under \$10.00.
4. Successful bidders will either be billed first, or sent lots with bill and invoice directly. Please pay promptly upon receipt of statement. Postage and insurance will be added to the total. California residents must pay 6% sales tax in addition.
5. Prices realized are available for 50¢.
6. Lots may be returned within 5 days of receipt only if there is an error in the description or material sent. Check your bids for errors and keep a record of the bids you have submitted.
7. Lot descriptions follow the general pattern: Obverse/Reverse legends, metal, size in MM, catalog numbers (if known), and condition.

Notes:

Since there were few bidders and few lots upon which bids were placed I am simply sending you a free copy of this prices realized. Items not bid upon were not listed here. Several items were given too low bids in my opinion, mainly the Gaming tokens in top grades and one or

two others like the Uruguay token. Those are very seldom seen on this continent. Several collectors volunteered that they did not know how to bid on tokens since most of you were on Holland Wallace's coins list. My assumption is that very few of you are long-standing token collectors. Several more experienced bidders bid very high and had their bids reduced under my rule #3. Many of those pieces withdrawn will reappear on my January list as will some Puerto Rican Hacienda tokens and a collection of Phillipines pieces. This will go to a primarily token-collecting audience.

Here are some guidelines I use in bidding for my own collections. They do not take into account rarities, but are just general ideas with which many may disagree:

Gaming Tokens - Proof grade	\$10-12	Puerto Rico Hacienda	10-12.50
" - circulated	2-3.50	(apparently they go for considerably more on the island)	
Guatemala, El Salvador, & Costa Rica	3-5.00	Mexico	2.50-10
Honduras, Panama	10-12	North Africa, Dutch Colonial pieces	10-25
Ecuador, Peru, Bolivia	7-10		
Colombia, Venezuela	5-8		
Chile Nitrate Tokens	2-4		
Cuba	8-10		

Thanks for your bids.
